

E-Pump Kit-1

Universal Electric Power Steering Pump Kit – Overall Sizes

25mm

Mounting Rubber Blocks 4 off in kit.

(Brackets need to be made to mount pump using the Rubber Mounting kit supplied with the kit)

<u>E-Pump Kit-1</u> Technical Specifications.	
Operating Voltage Range	10 to 15 V DC
Current Draw with Pump at Idle Mode (80% RPM) No Steering Load	7 to 15 Amps
Current Draw with Pump under Load (100% RPM) - Steering Under Load i.e. Turning the steering wheel with Hydraulic System Pressure @ 700 to 800 Psi.	45 to 55 Amps
Maximum Current Draw (Steering Full Lock) <u>Please Note</u> - Damage to the pump will occur when the steering is held at full lock (Max Pressure/Output) for more than 5 to 10 seconds.	Up To 80 Amps
Weight (Pump Only)	4.5 KG.
Pump Max Pressure / Pump Max Flow Rate	1450Psi / 3.5 Lts. per Min.
