

E-Pump Kit-1

Electric Power Steering Pump Kit Fitted to inner-guard on a Holden EH Ute.

Photo's below shows one of our Electric Power Steering Pump fitted to the Right hand side inner front guard.

This Pump has a remote reservoir so the supply & return hoses are plumbed through the inner guard to the reservoir mounted inside the engine bay.

Brackets were made to mount Pump to Front of the RHS Inner-guard.

New Rubber Mounting blocks used to insulate Pump off the lower Bracket.

(4 x New Rubber Mounting blocks supplied in kit.)
