

## Universal Power Steering Reservoir Kit fitted to – 9/2004 Hyundai Santa-Fe. Part No Kit-Res-01

The photos below show how we fitted our Universal Power Steering Remote Reservoir Kit to a 9/2004 Hyundai Santa-Fe with a V6 Engine. The original reservoir was damaged with the internal filter blocked and the original parts are no longer available, so we fitted our Remote Reservoir Kit.

Before

After

Remove the old reservoir & bracket then modify "New" bracket to fit the vehicle.

Old Res and bracket removed.

New "Modified" Bracket welded and bolted back into place on the vehicle.

New reservoir and "Modified bracket" on the vehicle with original return and supply hoses fitted.

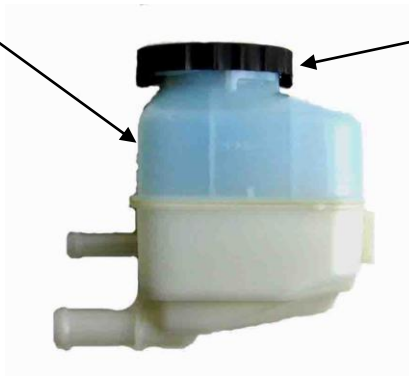

## Ultimate Power Steering - Part No **Kit-Res-01**

### Universal Power Steering Remote Reservoir Kit

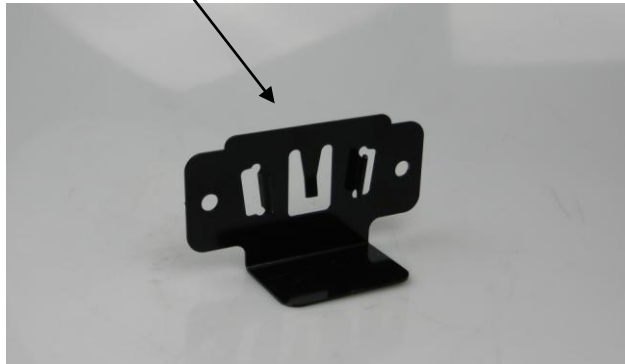

If your vehicle has a remote reservoir with 16mm (5/8") ID supply hose and a 10mm (3/8") ID return hose fitted, and your original reservoir needs to be replaced or moved to a different location in the engine bay, then our kit is for you.

The kit contains –

1 x New Plastic Power Steering Reservoir (with internal filter) and 1 x New Plastic Reservoir Cap

1 x New Steel Universal Mounting Bracket (To Mount New Reservoir)

The Steel bracket can be welded "if needed" to fit different applications.

Please Note – Our New Plastic Power Steering Reservoir is designed to fit 16mm (5/8") ID supply hose and a 10mm (3/8") ID return hose.

For more information on this kit please call Ultimate Power Steering - Ph (07) 3889 7077
